We know you will have great fun with your product but to get the best from your purchase please read this important information and your product instructions before you operate your model.

Safety Information

 **HPI products are not toys!**
They are only suitable for children under the age of 14 years with direct adult supervision. It is the parent(s) or guardian(s) responsibility to ensure minors receive appropriate guidance and supervision when using or working on this product.

 **The user is responsible for operating the product safely in accordance with the cautions in the instruction manual.**
It should not be used on public streets, in crowded areas, environmentally sensitive areas, around children, or animals. Please make sure that others are aware you are using the product to avoid damage or injury. This product contains moving parts and parts that may become hot during operation. The user is responsible for using correct batteries, fuels, glues, paints, chargers and any other tools, accessories or materials required to operate and maintain this product in line with their manufacture's guidelines.

Chargers cautionary note: Do not charge batteries unattended, ALWAYS read and follow your chargers' manufacturing guidelines.

Please routinely inspect your product before operation. If a problem is found or occurs during use it is the user's responsibility to stop the car, investigate and correct the problem before further damage occurs.

HPI, its distributors, and retailers shall not be responsible for any loss or damages. Whether direct, indirect, incidental or consequential damages, arising from the use, misuse or, abuse of this product or for any accessory and/or chemical required to operate this product.

Up To 2 Year Component Guarantee

The component parts of your HPI product are guaranteed to be free from defects in materials and workmanship for a period of 2 years from the date of purchase except for electronic components and engines only for a period of 12 months and batteries only for a period of 3 months.

Make sure that you save the dated sales receipt or invoice provided to you when purchasing your HPI product. This must be submitted when making a guarantee claim as proof of purchase.

If defect(s) are found in materials, workmanship, or assembly **before** the product has been run or started then HPI will exchange the entire product provided is returned complete in good condition and in its original packaging. Once the product has been used only a component level guarantee is available and HPI will gladly repair or replace the defective component(s) at our discretion.

Due to the complex nature of HPI Products and legal requirements of different regions, guarantees issued by HPI are only valid for products sold to and purchased in their respective regions and are not transferable to other parts of the world. Your guarantee is provided in addition to and does not affect your local consumer rights.

To register your product and activate your guarantee please refer to the MYhpi registration sheet enclosed and visit and www.hpiracing.com/register

Not covered by guarantee: Damages resulting from crashes including component failure or premature wear as a result of crash damage, neglect, lack of maintenance, failure to follow correct maintenance or user guidelines, improper use, user abuse and commercial use. Normal wear and tear items including, but not limited to, worn-out brake parts, clutch shoes, drive outputs, drive shafts, gears, bearings, and belts. Water damage or problems resulting from water intake, except where parts are stated as waterproof. Starting mechanisms and one-way bearings. Body shells that have been painted or altered.

Starting mechanism cautionary notes: Pull starts should only be pulled around 20cm and cannot withstand vigorous over-pulls. One-way bearings can be damaged by trying to start a flooded and/or locked engine.

How to make a guarantee claim:

Contact the supplying retailer where the vehicle was purchased as they will be your quickest and best source of information and assistance. If they are unable to assist you please locate and contact the distributor for your market area from the HPI web link www.hpiracing.com/distributors

Do not return product(s) to your HPI retailer or distributor without prior approval.

Do not return the product in full as it may only be necessary to return faulty parts. In many cases it is faster and more cost effective for the user to fit replacement parts on the car and we retain the right to request this of the user. You will be instructed what will need to be returned. Any returned components should be accompanied by a written description of the problem encountered, a copy of the sales receipt or invoice, your return shipping/ mailing address details and a daytime telephone number should the need arise to contact you.

Under no circumstances should faulty LiPo batteries or products be returned with fuel in the tank, lines or engine.

Please note: Returned products that are found to have an invalid guarantee claim may be subject to an inspection and handling charge before they can be returned. Any repairs made to the product resulting from neglect or misuse will be charged for parts and labour before work commences.

Legal Information

 **Do not dispose of electrical components in household waste.** Please use local waste disposal centre.

This item is in accordance with worldwide product safety and environmental legislation: -

 The radio equipment type in this product transmits in the frequency range 2.4 to 2.4835 GHz with a maximum power of 20dBm and is in compliance with EU Directive 2014/53/EU. The full text of the Declaration of Conformity is available at www.hpiracing.com/ce

FCC Compliance: This device transmits in the range 2.4 to 2.4835 GHz and has been tested to comply with the limits for a Part 15 Class B device of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Any change or modification to the device not expressly approved by HPI Racing A/S Ltd. may void the user's authority to operate the equipment. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Canada Compliance Statement: This Class B digital apparatus complies with Canadian ICES-003. (Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.) This equipment complies with the FCC/IC radiation exposure limits set forth for FCC and Industry Canada portable transmitting devices operation in an uncontrolled environment. The equipment should only be used or installed at locations where there is normally at least a 20cm separation between the antenna and all persons. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
